

Vacuum Type Banknote Counting Machine

TW-880

The TW-880 uses the Micro computer Dual-CPU electronic technology. 20 years manufacturing experience has guaranteed the precise, speedy and stable counting. The large screen and bright LED make all information clear at a glance. The display and input panel can be customized with different languages. The wide applicability comes from the simple and quick operation.

Accurate counting

High-precision spindle, high-performance electronic components and optimized software system provide high-accuracy counting.

Quite and reliable

High quality motor and vacuum pump are used to lower the noise and make a quiet working environment.

Outstanding functions

CHECK Mode (You can check if the banknote is exactly 100 sheets), FREE Mode (You can count the banknote freely between 1 and 200), BATCH Mode (You can preset the banknote number and count them out) and ACCUMULATION Mode (Accumulate the counted results and display it) are built in it. Four counting speeds can be switched easily. It is precise and stable for long time running.

Unique design

Super bright and big LED is used for display counted results clearly. The input panel is simple and easy to operate.

Specification

- 1.Type: Vacuum type
- 2.Speed: 2.2s/100sheets, 3s/100sheets, 3.5s/100sheets, 4s/100sheets
(The factory default setting is 4s/100sheets)
- 3.Display:
Counting and Accumulation Mode display: 5+3 digits LED display
Batch Mode display: 3 digits LED display
- 4.Capacity: 200 sheet max
- 5.Dimension:
300mm(W)×410mm (D) ×258mm (H)
6. Weight: about 25KGS
7. Power: 220V / 50Hz, 110V / 60Hz
8. Note size: 45mm × 100 mm ~ 130mm × 240mm
9. Control system: Microcomputer of Dual-CPU
